

Class Rules

Given below is a sample of simple classroom expectations. Suitable ones may be picked out while creating such a poster for your classroom. It is best to keep it short i.e. 5-6 at a time and then change every term. It can then be pinned up on the display board or pasted on the wall where it can be viewed clearly.

Why not use it at the start of the school year and ask children to come up with their own list of suggested rules? Here are some rules that could be included.
